

SITE INSIGHT

A quarterly newsletter giving information on activities carried within the company during the quarter.

MARCHING TOWARDS NEW MILESTONES!

For the construction of Level 3 and Level 4 biosafety research laboratories, we have obtained a work order. We are expanding our operating reach in Eastern India through this initiative, which is our second endeavor in association with the Central Government.

These cutting-edge facilities are created for the secure handling and examination of viruses and infectious agents, each of which poses a different level of risk to human health. We aim to position ourselves as the preferred EPC business to be a part of these specialized laboratories in the years to come, therefore hitting fresh milestones, by using our distinct expertise in healthcare infrastructure development.

From MD'S Desk

Dear Associates,

It brings me great joy to re-establish our connection through the second edition of our newsletter. The past quarter has seen remarkable progress within our organization, and I am eager to share these noteworthy highlights with you.

I am delighted to announce that we have secured a work order for the development of Biosafety Level 3 / Level 4 research laboratories. Through this project, we are extending our operational footprint in Eastern India, marking our second endeavour in collaboration with the Central Government. Our unique expertise in healthcare infrastructure development, we aspire to position ourselves as the preferred EPC company to be part of these specialized laboratories in the years ahead.

I am immensely proud to announce the successful completion of the ambitious healthcare infrastructure project for JJ Hospital in Mumbai. With this project, our transformative journey continues, solidifying our commitment to executing healthcare infrastructure projects that meet the latest standards and future requirements. Our dedicated team exhibited unwavering commitment from the project's inception to its successful completion.

This achievement stands as a testament to our collective capabilities, propelling us to new heights in the realm of healthcare infrastructure. In the face of adversity during the monsoon season, our Court Building project in Nanded encountered heavy rainfall. I am proud to share that our dedicated Nanded team exhibited remarkable presence of mind, ensuring the safe evacuation of workers from the flood-affected area. In this project, we have recently achieved a milestone of completing 1 million safe man-hours. This accomplishment holds great significance for us, as it underscores the positive outcomes of our steadfast commitment to a safety-first culture.

Our other projects also have gained significant momentum, with activities progressing at a rapid pace. Our EHS team has been making dedicated efforts to ensure the safety of these sites, meticulously following every aspect of the EHS protocol. At times, they have even gone the extra mile to achieve the desired results. Their commitment to safety is truly commendable.

During this quarter, we celebrated the Ganesh festival with enthusiasm and positivity across all our sites and offices. This festival brought with it a renewed spirit, motivating us all.

It was heartening to see people from various sites come together to celebrate and honour the hard work and dedication of our workers and operators through motivational programs. I extend my deepest appreciation to every individual who contributed to the success of these events.

In conclusion, I wholeheartedly urge each and every one of our esteemed associates to persistently pursue excellence with a firm dedication to our shared vision. I request everyone to let us start on this journey together with a resolute determination to meet our goals and surpass the expectations of our clients. The path ahead is paved with immense potential, and as a united team, we can scale even greater heights, achieving new milestones that will define our legacy in the days and years to come.

Your commitment, talent, and passion are our driving forces. With our collective efforts, we will continue to reach new summits of success and accomplishment.

Regards,
Vinay Badera.
MD, Shubham EPC Pvt. Ltd.

Dear Readers,

This digital newsletter edition is a great way to stay informed about the organization's progress. The company is making significant progress, with financial results reflecting its dynamic status. The changing infrastructure landscape presents opportunities for growth. To succeed, the company must consistently exceed team expectations and provide effective corporate governance. The outlook is positive, and the best wishes are extended to all of you.

13TH ANNUAL REPORT FOR THE
FINANCIAL YEAR 2022-23

KEY HIGHLIGHTS

- LEARNING INITIATIVE- PAGE/02
- REWARDS & RRECOGNITION- PAGE/02
- NEW PROJECT LAUNCHED- PAGE/03
- COMPLETED PROJECTS- PAGE/03
- WEFARE EVENTS & TRAINING- PAGE/04

INITIATIVE FOR LEARNING

Mr. Mayur Hadwale graciously imparted a training on Planning Fundamentals. He covered the topics such as Mastering Project Scheduling, Improving Resource Allocation and Management, Utilizing Planning Software, roadmap for planning professionals to enhance skills and contribute effectively to project planning and execution within a construction time frame. Having a good insight into different aspects of planning results in efficiency, success and overall growth and reputation of the organisation. The employees learnt different aspects of planning, execution and completion of any project.

STUDY TOUR BY ADMINISTRATIVE COURT BUILDING, NANDED TEAM

The Nanded Project Team embarked on an exciting journey to Pune on September 30. During their visit, they explored various projects like STT, NIN, and Baramati, gaining valuable insights into quality and safety practices. These experiences inspired them to enhance their work methods. They learned about store management and team bonding while also strengthening their skills and teamwork, resulting in a positive and valuable experience. Now, armed with fresh knowledge, they are all set to make their daily tasks even better.

Hasan Mushrif, Cabinet Minister for Medical Education & Special Assistance, Govt. of Maharashtra, has just given his seal of approval on September 21, 2023 by inaugurating it for the people of Maharashtra.

SCOPE OF WORK

HEALTHCARE + MEP WORKS

ENGINEERS DAY CELEBRATION

On the occasion of Engineer's Day, we had arranged for an online event for all the employees across India. Around 125 team members enjoyed various games and quizzes, etc. Vinay Sir also shared his thoughts on Engineer's Day, which made the event even more amazing.

EVENTS AND CELEBRATIONS

INDEPENDENCE DAY CELEBRATION AT SHUBHAM

The national anthem was played in Shubham EPC's office on August 15 along with patriotic music, speeches from management leaders, and a quiz that was held as part of the office's celebration of India's Independence Day. We showed our team's deep-seated patriotism by dressing in traditional Indian garb for the event.

BHUMI POOJA CEREMONY STTELEMEDIA DC 5

Based on the performance of the ongoing DC4 project, we have been awarded the STT DC5 Project - Sub Structure Work. Shubham EPC is working on the civil works & other allied activities for both the STT data centers located in Pune.

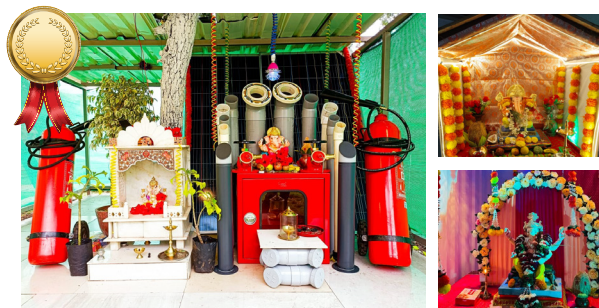

STT - MOTIVATIONAL PROGRAM

At the STT Project site, various staff members were felicitated with tokens of appreciation for their good efforts and remarkable achievements in order to inspire the construction site workforce. Senior project members delivered a speech on this occasion to inspire the project site employees.

JJ HOSPITAL INAGURATION

On September 21, 2023, Hon. Hasan Mushrif, Cabinet Minister for Medical Education & Special Assistance, Govt. of Maharashtra, officially inaugurated the newest medical facility with a surgical modular operation theatre and a special intensive care unit (ICU) with 17 beds at Sir JJ Hospital in Mumbai. It was an amazing accomplishment for Shubham EPC to complete this major task on schedule and with devotion.

GANESH FESTIVAL & ENGAGING DECORATION CONTEST

Team Shubham came together to celebrate the Ganesh Festival at the head office and various project sites. The pooja ritual was organized and performed with a collective effort, unity, and teamwork.

One of the most exciting aspects of the celebration was a competition for the best decoration. Each site put in their creative efforts to decorate the idol and its surroundings. Notably, the NIN Site stood out and won the competition for their innovative use of MEP (Mechanical, Electrical, and Plumbing) materials for decoration. Their unique approach left everyone impressed.
